# 3<sup>rd</sup> International Scientific Conference

**Theme: Climate Change and Environmental Responsibility:  
What is the Way Forward?**

**Venue:** University of Technology, Jamaica  
237 Old Hope Road  
Kingston, Jamaica

**25 - 27 June 2014**

# WHY THIS CONFERENCE?

One of the most pressing global issues is climate change. With effects such as sea level rise, shifts in animal and plant ranges and more intense storms and heat waves, the problems associated with climate change will affect all regions. This conference will provide a forum for scientists and entrepreneurs to present and discuss their current areas of research, discoveries, solutions and remedial actions.

## Thematic Areas:

- Climate Science: Enabling informed action for development
- Climate Change and the Marine Environment
- Alternative Energy Solutions
- Climate Change Education
- Climate Change and its Effects on Small Island Developing States

## Who Should Attend?

- Science Lecturers, Teachers, Researchers and Students
- Chemical Industries and Environmental Organisations
- Alternative and Renewable Energy Companies
- Government Agencies, Scientific Agencies/Bodies
- Anyone interested in climate change and alternative energy studies

# CONFERENCE INFORMATION

## Plenary Speaker:

Nobel Prize Awardee, Professor Emeritus  
Abraham Anthony Chen, UWI (Mona)

## Conference Hotels:

The Jamaica Pegasus Hotel -  
<http://www.jamaicapegasus.com/>

Knutsford Court Hotel -  
<http://www.knutsfordcourt.com/>

Please visit the conference's website for  
information on special accommodation rates.

## Registration Information

### Registration fees:

- 2-day (on or before May 24, 2014) - US\$70
- 2-day (after May 24, 2014) - US\$90
- 1-day - US\$50
- Student (2-day) - US\$50
- Student (1-day) - US\$30

This fee entitles participants to access all scientific activities, lunch and breaks, programme and book of abstracts.
