Instruction: This document serves two (2) functions: 1) To guide your module selection and 2) To help you to track your progress at each level/semester. There is a column on the document to write (type) in your grades at the end of each semester/level. The purpose for this is to guide both you and your Academic advisor as you plan your diet for each semester/academic year. This document is to complement your Progress Report and should be used during your academic advisement sessions.
